SUBJECT: SERBIA: 2008 END USE MONITORING REPORT

REF: 08 STATE 127211

11. Per reftel, Embassy Belgrade's 2008 End Use Monitoring Report follows.

12. PROCEDURES

1A. Inventory Management

EUM Program coordinator:
Robert Norris, +381.11.306.4836, U.S. Embassy Belgrade, Kneza Milosa St. 50, Belgrade, Serbia

Inventory System:
DOJ/OPDAT and DOJ/ICITAP do not use an automated inventory system to record and track the distribution of resources provided to host government agencies. Instead, detailed records on donated equipment i.e., specifications, serial numbers, dates of hand-over, etc., are used. Transfer documents, designed and approved by the Republic of Serbia Ministry of Interior and the Embassy, are also used by DOJ/ICITAP and DOJ/OPDAT in support of this report.

Staff member EUM Responsibilities:
ICITAP used personal on-site inspection to monitor the end use of this equipment. Two project advisors and a program assistant participated in the process. The program assistant developed a detailed list of specifications for the donated equipment. The Advisors visited the offices to inspect the equipment and its designated use. Customs clearance was conducted by the recipient's representative with ICITAP's assistance. There have been no changes in ICITAP's staff and End Use Monitoring responsibilities from 12007.

The OPDAT staff, during their regular visits and meetings at the offices of recipients, informally inspected the equipment and its designated use through discussions with host government officials on the status of donated equipment. Also, OPDAT compared recipients' written or computerized records with its own records of donated equipment.

Other USG Agency Assistance:
DOJ/ICITAP, DOJ/OPDAT
